Food Pantry

Description:

Growing Home's Food Pantry program is designed to provide low-income families in our community with more than just emergency food. We focus on offering fresh, healthy, kid-friendly options that offer long-term benefits. We are the only 6-days-a-week, client-choice food pantry in our region. We provide almost 200 families monthly with a three-day supply of food for the entire family, and we offer diapers and hygiene items to families as needed. All new families meet with a Family Support Specialist and are connected to other Growing Home programs and wrap-around supports based on the family's unique situation.

Primary Role of Program in Early Childhood Systems:

Direct Service

Service Area(s):

Adams

Population(s) Served:

Families

Services This Program Provides that Advance the *Early Childhood Colorado Framework*:

Family Support & Education
